

INLAND TANKER 110m x 11,45m - 10 tanks

With our roots in Werkendam, VEKA is located at the center of developments in the modern inland shipping market. Since 1988 we have gained extensive knowledge in the development and construction of a wide range of inland tankers.

Also, with VEKA Piping and Industry we are now leading in the production of complete piping systems for bunker and chemical inland tankers.

The 10 tank version of our 110 x 11,45 meter Inland Tanker makes the most out of its dimensions in terms of cargo capacity. With a wide range of outfitting options, the applications of the vessel are virtually endless.

A-11

TECHNICAL SPECIFICATIONS
