

## INLAND TANKER 110m x 11,45m - 8 tanks

With our roots in Werkendam, VEKA is located at the center of developments in the modern inland shipping market. Since 1988 we have gained extensive knowledge in the development and construction of a wide range of inland tankers.

Also, with VEKA Piping and Industry we are now leading in the production of complete piping systems for bunker and chemical inland tankers.

Thanks to its low air-draft and dimensions, our 8 tank 110 x 11,45 meter Inland Tanker offers the most economical transport solution for liquid cargos to major destinations along the European inland canals.

A-10

## TECHNICAL SPECIFICATIONS

### Principal dimensions

Length overall	: 110.00 m
Beam	: 11.45 m
Depth	: 4.65 m
Max draft	: 3.30 m
Tonnage	: 2,790 tons
Tank capacity	: 3,020 m <sup>3</sup>
Number of tanks	: 8 tanks

### Power and Propulsion

Main engines and equipment based on desired specifications.

Classification : Lloyd's Reg.

All specifications and general arrangements as provided in this document are provisional.
