

INLAND TANKER 86m x 9,60m

With our roots in Werkendam, VEKA is located at the center of developments in the modern inland shipping market. Since 1988 we have gained extensive knowledge in the development and construction of a wide range of inland tankers.

Also, with VEKA Piping and industry we are now leading in the production of complete piping systems for bunker and chemical inland tankers in Europe.

With its 86 meter length and low air draft, the 86 x 9,60 meter Inland Tanker has the maximum dimensions to reach most destinations on European inland canals. It is the perfect vessel to carry cargos to destinations bigger ships cannot reach.

TECHNICAL SPECIFICATIONS

Principal Dimensions

| | |
|-----------------|------------------------|
| Length overall | : 86.00 m |
| Beam | : 9.60 m |
| Depth | : 4.68 m |
| Max draft | : 3.20 m |
| Tonnage | : 1,680 tons |
| Tank capacity | : 1,879 m ³ |
| Number of tanks | : 5 tanks |

Power and Propulsion

Main engines and equipment based on desired specifications.

Classification : Lloyd's Reg.

All specifications and general arrangements as provided in this document are provisional.
